

Dear Valued Shareholders and Customers,

San Miguelito Mutual Water Company (SMMWC) has implemented operational plans to protect the health of our shareholders/customers and employees during this COVID-19 public health emergency.

First and foremost, you can rest assured that the water SMMWC delivers is safe to drink and meets all State and Federal health and safety requirements. Our normal disinfection processes are protective against viruses including the Coronavirus. Our Staff will continue to daily monitor all aspects of the Water Operations.

Just like our Water system, our Wastewater Conveyance and Treatment system is fully operational. Our Staff continues to monitor all operations of our Lift Stations and Treatment plant. SMMWC asks that you be aware of what you flush. Wet wipes, rags, or pieces of fabric should be bagged and thrown in the trash...not in the toilet!

SMMWC Operational Staff will continue with minor repairs and we will have an Operator on call after hours at all times. If the situation arises, we have reached out to some of neighboring systems for mutual aid.

SMMWC Administrative Staff will be in the office during normal business hours, Monday - Friday 9:00am to 4:30pm. Please be advised that per the SLO Emergency Ordinance, our office is closed to the Public.

Please do not hesitate to contact us by phone or email.
For after-hours emergencies, please call (805) 595-2348, select option 4.

Sincerely,

SMMWC
