VIII. GENERAL MANAGER'S REPORT

- Administration

- State Water deliveries continue to be projected by the DWR at 20% for 2015.
- Conservation usage through August – Residential usage is at 82% of target; Commercial usage is at 84% of target; Residential HOA Irrigation is at 66% of target and Commercial Irrigation is at 108% of target.
- Staff continues to work with GTA to provide data for the WRSA.

- Operations

-Water

- We are taking our requested State Water amounts and using the well at a 4:1 ratio in order to lower the taste and odor coming from the Lopez system.

-Wastewater

- The plant is running well. We continue to pump off floatables periodically to keep the surface of the plant cleared.

- All lift stations are operating well. Grit still tends to build up in certain wet wells and continue to be on a periodic pumping program.

- Other than cutting roots out of some manholes, we have had no problems with the collection system.

IX. FINANCIAL STATEMENT

The Board Management Report for September 2015 was presented by General Manager Rick Koon with the following highlights:

Cash and Reserve Funds as of September 30, 2015 are:

Operating Cash	Operational Contingency Reserves	State Water Reserves	Capital Reserves
\$101,175	\$54,933	\$210,738	\$1,805,673

X. BOARD MEMBER COMMENT – Rob Rossi commented that with an El Nino predicted for this winter, it would be in the company’s best interest to prepare for the possibility of flooding in the area. He said that when the area flooded 20 years ago, the creek and weir maintenance/cleanup was under the jurisdiction of the US Coast Guard and performed by golf course personnel. General Manager Koon will contact the county to determine who will be responsible for cleanup should there be a flood in the area.
